

Sarah Miller

Data Scientist

Contact

Email: sarah.m@email.com

Phone: +1 (555) 019-8765

Loc: Seattle, WA

Skills

Python, R, PyTorch, SQL, Spark,
Tableau, Machine Learning, Deep
Learning, Statistics

Education

Master of Science in Statistics

University of Washington

(Grad: 2021 - 2023)

Bachelor of Science in Math

Oregon State University

(Grad: 2017 - 2021)

Profile Summary

Analytical Data Scientist with 2 years of professional experience modeling predictive solutions and building statistical classifiers. Passionate about machine learning operations and deep learning NLP architectures.

Work Experience

Data Scientist - Insight Data Labs (2023 - Present)

Developed an unsupervised clustering algorithm to segment user cohorts, improving targeted marketing campaigns return-on-ad-spend by 18%. Deployed real-time predictive APIs using Flask and Docker.

Junior Analyst - Metrics Corp (2021 - 2023)

Cleaned large-scale telemetry datasets and optimized SQL pipelines, reducing data warehouse run times by 40%.

Key Projects

NLP Summarization Tool: Fine-tuned a BART model to summarize research articles, deploying it as a serverless AWS Lambda endpoint.

Churn Prediction Engine: Constructed XGBoost churn classifiers for subscription clients with a 92% Area Under Curve (AUC) rate.
